GitHub: github.com/hey-harshit

Portfolio: portfolio-site.com

Email: mail.harshit.in@gmail.com

Mobile: +91 9955808652

SKILLS

Languages:	Python, C/C++, JavaScript,
Tools/Platforms:	PostgreSQL, Docker, GitHub Actions(CI/CD)
Core Subjects:	Data Structure & Algorithm, Operating System, Computer Networks, Database Management Systems
Soft Skills:	Time Management, Leadership, Adaptability

WORK EXPERIENCE

Open Source Contributor / Ambassador — GSSOC | [Certificate](#) Jul 2026 – Sep 2026

- Assigned the role of Open Source Contributor & Ambassador.
- Contributed in promotion of GSSOC around the campus and in projects.
- Increased partnership in GSSOC resulting to around 50k total participants (Highest ever recorded) and merged PRs in Github.

PROJECT

GreenPulse – Renewable Energy & ROI Web Portal | [GitHub](#) | [Live](#) April 2026 – May 2026

- Built an interactive, single-page educational web portal to promote adoption of clean energy across India, utilizing vanilla HTML5, modern CSS, and JavaScript.
- Engineered dynamic ROI and cost estimation calculators for solar, wind, and biogas systems that instantly compute annual savings, system capacity, and payback periods based on live user inputs.
- Integrated comprehensive government subsidy modules and state-wise renewable energy capacity visualizations to simplify access to central initiatives like PM Surya Ghar and PM KUSUM.

Tech Stack: JavaScript (ES6+), HTML5, CSS3, GitHub Pages

LoRa-Based Long-Range Emergency SOS Alert System March 2026 – May 2026

- Engineered an off-grid emergency communication system using Arduino Uno microcontrollers and LoRa SX1278 transceiver modules to transmit distress signals in network-deprived environments.
- Configured point-to-point wireless RF communication via SPI protocol at 433 MHz, implementing packet-based message broadcasting for reliable transmitter-receiver telemetry.
- Designed and calibrated transmitter push-trigger logic and receiver alert indicators, ensuring low-latency alarm triggering and low-power standby operation over extended line-of-sight ranges.

Tech Stack: C/C++ (Embedded), Arduino Uno, LoRa SX1278 (RF), SPI Protocol, Embedded Systems

TRAINING

Cyber Security & Awareness Training — WNS CyberSmart June 2026

- Trained in **cybersecurity fundamentals**, including phishing awareness, social engineering, password security, and online safety.
- Applied concepts while conducting a **cybersecurity awareness session for 30+ students**.

CERTIFICATIONS / CERTIFICATES

Introduction To Artificial Intelligence | [Infosys Springboard](#) March 2026

Introduction to Python | [Infosys Springboard](#) Feb 2026

PMP - Time Management | [Infosys Springboard](#) Oct 2025

EDUCATION

Lovely Professional University Phagwara, Punjab

B.Tech / Computer Science Engineering — CGPA: 8.5 August 2025 – May 2029

R.N.T.S College Sitamarhi, Bihar

(Class XII) — Percentage: 81 April 2023 – Feb 2024

DAV Public School Sitamarhi, Bihar

(Class X) — Percentage: 91 April 2021 – Feb 2022
